## Introduction

This Disclosure Document has been prepared by Finmeccanica S.p.a. (the “Company”) to provide information to its shareholders and the market on the proposal to adopt the Long-Term Incentive Plan (the “Plan”) that, on 25 March 2015, the Board of Directors of the Company, acting on a proposal of the Remuneration Committee at its meeting of 24 March 2015, voted to submit for approval by the Ordinary Shareholders’ Meeting called to meet on 8 and 11 May 2015, at first and second call respectively. The Plan is structured around rolling three-year cycles, which will begin as from the years 2015, 2016 and 2017. The Plan is also based on financial instruments.

More specifically, the Disclosure Document was prepared in accordance with Article 84-bis of Issuer Regulation no. 11971/1999 (the Issuers Regulation) to explain the terms and conditions of the Plan. The Plan was also prepared in accordance with the recommendations contained in Article 6 of the Corporate Governance Code. In view of its Beneficiaries, the Plan can be considered to be “of major importance” pursuant to Article 114-bis, paragraph 3, of the Consolidated Law on Financial Intermediation (Legislative Decree 58/98) and Article 84-bis, paragraph 2, of the Issuers Regulation.

The Company’s long-term monetary incentive plan has evolved into the new Plan largely as a result of the need for a tool to incentivise management to achieve the medium and long-term objectives set out in the Group Industrial Plan and to better align management compensation with the creation of value for shareholders.

The Plan consists in the grant of bonus Shares to senior management and a combination of Shares and cash to the remainder of the Beneficiaries for reaching specific, pre-set Performance Targets measured at the end of a three-year period.

This Disclosure Document is available to the public at the Company’s registered office located at Piazza Monte Grappa no. 4 in Rome, as well as on the Company’s website ([www.finmeccanica.com](http://www.finmeccanica.com)) and through the market regulator, Borsa Italiana SpA, and on the NIS-Storage authorised storage system ([www.emarketstorage.com](http://www.emarketstorage.com)).

The Beneficiaries will be selected by the Board of Directors following approval of the Plan by the Shareholders' Meeting. Please see the disclosures that will be provided under Article 84-bis, paragraph 5a) of the Issuers Regulation.

## 2. Reasons for adopting the Plan

### 2.1. Objectives to be achieved by means of the attribution of the Plan

By adopting the Plan, the Company is pursuing the goal of encouraging key Group employees to improve medium/long-term performance, both in terms of business and financial performance and the creation of value for shareholders.

More specifically, the Plan seeks to achieve the following objectives:

- focusing management on medium/long-term targets from the viewpoint of the sustainable business and financial performance of the Group;
- laying the foundations for closer convergence of the interests of management and the shareholders;
- ensuring that the remuneration package is better aligned with market practice.

### 2.2. Key variables, including performance indicators, considered in order to attribute the Plan

The effective award of the bonus in Shares and/or cash is subject to specified conditions precedent, represented by:

- the performance of Total Shareholder Return (TSR) for Finmeccanica compared with the TSR of a select panel of companies in the three-year reference period;
- the Net Financial Position of the Group at the end of the three-year reference period;
- Return On Sales of the Group at the end of the three-year reference period.

The Board, acting on a proposal of the Remuneration Committee, has selected the above performance indicators as appropriate for measuring the industrial performance of the Company and of its capacity to create value for shareholders. The Plan is a rolling arrangement and each cycle lasts three years in a manner consistent with the business planning approach adopted by the Company.

### 2.3. Factors underlying the determination of the amount of compensation based on financial instruments, i.e. the criteria for its determination

The Plan groups the Beneficiaries into three categories (Categories 1, 2 and 3) to each of which it:

- pays a different bonus amount taking account of (i) the differing levels of responsibility, (ii) the contribution to performance and (iii) the position within the organization of the company involved, based upon the methodology for weighting the positions already in use in determining compensation policies within the Group;
- pays a different combination of Shares and cash in granting the bonus.

Each Beneficiary is notified, upon being made a participant of the Plan, of the amount of Shares and cash that constitutes his or her individual Grant based upon the following framework:

Category 1 Beneficiaries: 100% of the bonus consisting of Company Shares

Category 2 Beneficiaries: 70% of the bonus consisting of Company Shares and 30% of the bonus in cash

Category 3 Beneficiaries: 30% of the bonus consisting of Company Shares and 70% of the bonus in cash.

The levels of incentive offered by the Plan are consistent with the principles underlying the remuneration policies of the Company. For more information on those principles and the overall structure of the remuneration policy, please see the Remuneration Report published in accordance with the applicable regulations on the Company website ([www.finmeccanica.com](http://www.finmeccanica.com)). For any information not currently available, please see the information that will be provided under Article 84-bis, paragraph 5a) of the Issuers Regulation.

**2.4. Reasons for any decision to attribute compensation Plans based upon financial instruments not issued by the Issuer, such as financial instruments issued by subsidiaries or parent companies or third party companies with respect to the group of origin; in the event that said instruments are not traded on regulated markets, information on the criteria used to determine the value assigned to them**

Not applicable.

**2.5. Evaluations with regards to significant tax and accounting implications that have affected the definition of the Plan**

The structure of the Plan has not been affected by applicable tax regulations or accounting implications.

**2.6. Any support of the Plan by the special Fund to encourage workers to participate in businesses, pursuant to Article 4, paragraph 112 of Law 350 of 24 December 2003**

The Plan does not receive any support from the special Fund to encourage workers to participate in businesses, pursuant to Article 4, paragraph 112 of Law 350 of 24 December 2003.

More specifically, the Chief Executive Officer may:

- (i) identify any other Plan Beneficiaries in compliance with the criteria and limits set out by the Plan itself;

- (iii) verify, during the course of the period of the Plan, continued compliance with the requirements for participation in the Plan;
- (iv) verify achievement of the Performance Targets and determine, for each Beneficiary, the cash amount and/or number of Shares due to them following such verification.

These activities, where delegated, shall be carried out on the basis of the preparatory work or advice of the Remuneration Committee.

### **3.3. Any procedures in place for the review of the Plan, including in relation to any change in the basic objectives**

In the case of extraordinary operations involving Company equity, extraordinary situations not envisaged in the Plan Rules or any changes to current pension and tax legislation or to any other applicable legislation or regulation (including governance rules) or in their interpretation and application, the Board of Directors will have the power to make any changes to the Plan, autonomously and without the need for further approval from the Shareholders' Meeting, deemed necessary or appropriate to maintain the substantive and financial content of the Plan the same with respect to regulations that may come into effect from time to time.

### **3.4. Description of the procedures for determining the availability and assignment of the financial instruments on which the Plan is based**

These Shares will consist of Shares already issued, to be purchased in accordance with Article 2357 et seq. of the Italian Civil Code, or already held by the Company. In this regard, at its meeting of 25 March 2015 the Board of Directors voted to submit a proposed authorisation to purchase and distribute treasury shares for the Plan to the Shareholders' Meeting for approval.

If, at the time it becomes necessary to award the Shares, the requirements for the purchase of treasury shares should not be met, the award of Shares may be replaced, in part or in full, by the award of a cash amount equivalent to the value of the Shares to which each of the Beneficiaries would have been entitled under the Plan.

### **3.5. The role played by each director in determining the characteristics of the Plan, any conflicts of interest concerning the relevant directors**

The entire process of determining the characteristics of the Plan was carried out collectively, with the advice and recommendations of the Remuneration Committee, in accordance with the recommendations of the Corporate Governance Code for listed companies prepared by Borsa Italiana SpA and with best corporate practice in this field. The resolution with which the Board of Directors adopts the Plan Rules will be approved in accordance with the applicable regulations.

### **4.5. The methods and clauses for the implementation of the Plan, specifying if the effective granting of the instruments is subject to conditions being met or certain results, including performance results, being achieved; description of such conditions and results**
